# Contents

**Infection**

78 Pyogenic and Fungal Lumbar Spine Infections

*Matthew J. Geck and Frank J. Eismont*

79 Tuberculosis

*S. Rajasekaran*

80 Postoperative Lumbar Spine Infections

*Eric C. Chamberlin and Edward N. Hanley, Jr.*

**Tumor**

81 Primary Spine Tumors

*Edward D. Simmons and Yinggang Zheng*

82 Metastatic Spine Tumors

*Stanley D. Gertzbein*

83 Lumbar Spine Tumors: Posterior Approach

*K. Anthony Kim, Babak Kateb, Peter Dyck, and Srinath Samudrala*

84 Anterior Procedures

*Mark A. Knaub, Douglas S. Won and Harry N. Herkowitz*

85 Combined Anterior-Posterior Procedures

*Osamu Shirado, Naoki Takeda, Akio Minami, and Kiyoshi Kaneda*

86 Prognosis and Results of Surgery for Primary and Metastatic Tumors

*Jonathan N. Grauer and Alan S. Hilibrand*

**Failed Surgery/Revision Surgery**

87 Determining Reasons for Failed Surgery

*Christopher S. Raffo and Sam W. Wiesel*

88 Failed Back Surgery Syndrome: Nonoperative Interventional Management Options

*Richard Derby and Connor W. O’Neill*

89 Psychological Approaches to the Management of Failed Surgery and Revision Surgery

*Robert J. Gatchel and Chris J. Main*

90 Surgical Treatment of Symptomatic Recurrent Disc Herniation

*Ragnar Johnsson*

91 Management of Failed Lumbar Surgery: Recurrent Stenosis

*Jayesh M. Trivedi and Stephen Eisenstein*

92 Failed Surgery and Revision Surgery: Failed Instrumentation

*Frank M. Phillips*

93 Management of Failed Surgery: Adjacent Segment to Fusion

*Thomas S. Whitecloud III and Paul Pagano*

94 Lumbar Pseudoarthrosis

*S. Govender*

95 Management of Failed Surgery: Posttraumatic Spinal Deformity

*Jeff S. Silber and Alexander R. Vaccaro*

96 Treatment of the Failed Back Patient: Spinal Cord Stimulation

*Donna D. Ohnmeiss and Ralph F. Rashbaum*
